-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Election/Restrictions***

Applicant's election without traverse of group II, claims 20-35 in the reply filed on 7/19/2005 is acknowledged. Claims 1-19 have been withdrawn from consideration as being drawn to a non-elected invention.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 20-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Taoka et al. in view of Tanaka et al.

Taoka et al. disclose or make obvious the limitations of the claims except the use of a multi-unit processing system.

Tanaka et al. teach a similar production planning system utilizing a plurality of processing units (See for example Fig. 1) including computer code for the control system.

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify Taoka et al. to include a plurality of processing units using computer code, as taught by Tanaka et al., in order to ensure "high production efficiency" (See Tanaka et al., Col. 2, line 44).

*Note: The use of the system in a farm/plant/seedling environment would have been an obvious design choice to one of ordinary skill in the art at the time of the invention in order to increase production efficiency of farm products.*

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
